

GOFIX APP BY CHAPELLE ENTERTAINMENT

Coach & Creator Engagement Opportunity

June / July 2026

To: Golf Coaches, Instructors & Golf Content Creators

Re: A New Tool to Grow Your Students, Community & Content

Hi Coach / Creator,

Gofix by Chapelle Entertainment is a new mobile golf app (about to be released) designed to help coaches and creators engage their students and audience in powerful new ways — both on and off the course.

Whether you're a teaching professional looking for better ways to extend your lessons, or a content creator building a golf community, Gofix gives you tools to deliver more value, increase retention, and create engaging content.

Why Work with Gofix as a Coach or Creator?

1. Extend Your Lessons Beyond the Range — After a lesson, assign specific areas of focus for students to practice in the Gofix app using simulated rounds. They can work on club selection, distances, elevation, slope, and wind — reinforcing what you taught them.

2. Build Community & Retention Through Social Play — Create challenges, group competitions, or friendly matches that students can play from anywhere. Keep your students engaged between lessons and build a stronger community around your coaching brand.

3. Powerful Teaching & Visualization Tool — Use Gofix simulations as a teaching aid. Help students visualize shots, understand course strategy, and improve decision-making — even when they're not on the course with you.

4. Content Creation & Engagement Opportunities — Create challenges, share simulated rounds, or use the app to generate content ideas. Turn student progress and fun social features into engaging posts, reels, and community interaction.

5. New Channel to Showcase Coaching Success — Easily share student wins, lesson highlights, and off-course practice improvements with your audience. Build your brand by celebrating the results you're helping players achieve.

What's Coming Next: Early access for coaches, creator tools for challenges and community features, feedback sessions on new simulation and pre-round tools, and opportunities for co-marketing and content collaboration. Your input will directly shape how Gofix supports coaches and creators.
