Re: Join the Goflex Community – A New Way to Play, Improve & Connect

Hi there,

Goflex by Chapelle Entertainment is a new mobile golf app (about to be released) designed to keep you engaged with the game you love — on and off the course. It combines fun, accessible gameplay with powerful tools that help new golfers, juniors, and experienced players improve while staying connected to the golf community.

Whether you're working on lowering your handicap, playing more socially, or just want a better way to prepare for your rounds, Goflex is built for players like you.

Why Play with Goflex?

- 1. Pre-Round Planning & Visualization** — Play a simulated game of any course the night before or morning of your round. Dial in club distances, visualize holes, and show up more confident and prepared.
 - 2. Social Game Play & Anywhere/Anytime Fun** — Play simulated rounds of real courses with friends from anywhere. Create challenges, compete with your group, or just enjoy the game when you can't get to the course.
 - 3. Designed for Improvement at Every Level** — Whether you're new to golf, a junior, or an experienced player chasing lower scores, Goflex helps you understand club selection, distances, elevation, slope, and wind in an engaging way. Perfect for practicing after lessons or building better course management.
 - 4. Full GPS + Scorekeeping & Stats** — Track your rounds with accurate GPS, keep score, view stats, and see your progress over time — all in one fun app.
 - 5. New Social Channel to Share Your Journey** — Easily share your on-course successes, great rounds, funny moments, and off-course practice wins with friends and the wider golf community. Celebrate your golf journey in a fun, social way.
- What's Coming Next:** We're building custom course simulations, new pre-round and game-play features, and ways for players to connect and compete. Your feedback will directly shape what we build next.
